

**WANT BETTER PUBLIC TRANSIT?
DON'T MISS THE BUS!**

This is an issue of critical importance to employers and employees alike.

For many years, the concern most often articulated by our membership has been inadequate public transit services in and to the Burnside area. Last summer the GBBA undertook a transit survey and presented the results to Metro Transit last fall. Metro Transit & HRM have since completed their own broader study and recently released a comprehensive Five Year Transit Plan, which includes numerous specific proposals affecting Burnside.

Join Pat Soanes, General Manager of Metro Transit and her colleagues for a presentation and Q&A session.

Thursday, March 18, 2010
